About this event

Science & Tech • High Tech

Join the UC Berkeley Center for Long-Term Cybersecurity, Bugcrowd, and the Hacking Policy Council for **EdProtect: A Cybersecurity Research Symposium,** an exclusive set of presentations on K-12 cybersecurity on **Friday, September 19** from **9:00am - 2:00pm** in Washington, D.C. *****

This event is by invitation only and spaces are limited.

About the Symposium: Learn from professional hackers and rising college cyber talent about Edtech vulnerability research; how they found real vulns in Edtech software and proposed patches for them, and what the Edtech industry can do to continue engaging with VDP and bug bounty professionals. We will also explore the role of student hackers in helping protect the educational institutions that they learn with.
